

JULIE

Unadorned elegance and a tall, slim stature, that's JULIE. The slender female mannequins aged between 20 and 30 years boast a unique body language. JULIE is impressive in her delicate femininity, which is underlined by the quaint facial expressions of the semi-abstract head produced especially for this range. As a pair, JULIE and the matching male mannequins JULES present a harmonic image. This abstract range was designed for high fashion and high-end denim. But its graceful poses also make JULIE suitable for lingerie.
